

MITHUN P

Full-Stack Developer | AI & Data Science Undergraduate

Erode, Tamil Nadu | 8122762374 | mithunmithun71548@gmail.com

[linkedin.com/in/mithun-p2006](https://www.linkedin.com/in/mithun-p2006) | mithunp.me | github.com/Mithunp123

PROFESSIONAL SUMMARY

Full-stack developer with a strong AI & Data Science foundation, focused on building and shipping production-grade web applications end to end. Delivered four live products — including a national-level event platform processing real registrations and payments — using React.js, Node.js/Express, and SQL/Supabase, with deployments on Cloudflare and VPS infrastructure. Comfortable owning a feature from architecture through deployment, with additional experience integrating AI/ML models into production systems. Seeking a full-stack engineering role to apply strong fundamentals and a builder's mindset.

EDUCATION

B.Tech — Artificial Intelligence and Data Science

2023 – 2027

K.S. Rangasamy College of Technology, Tamil Nadu

ACHIEVEMENTS

- 2nd Prize — TrueSight AI Deepfake Detection System, presented to Namakkal Cyber Cell

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, Java, SQL
- **Frontend:** React.js, HTML5, CSS3
- **Backend:** Node.js, Express.js, Flask, REST APIs (working knowledge)
- **Databases:** PostgreSQL, Supabase, SQL
- **Cloud & DevOps:** Git, Cloudflare, VPS Hosting, Vercel, Cashfree Payment API, Networking
- **Data & AI/ML:** Power BI, DAX, Machine Learning, Data Preprocessing, Model Evaluation, Deepfake Detection, Gemini API, Roboflow

PROFESSIONAL EXPERIENCE

Web Development Intern | Gradix Technologies

Mar 2026 – Jun 2026

- Developed and shipped live product modules in a full-stack production environment, working across frontend and backend layers of scalable web application features
- Collaborated with the engineering team on debugging, testing, and deployment pipelines, improving overall product stability and release quality

PROJECTS

DAKSHAA T26 — Full-Stack Event Management Platform

dakshaa.ksrct.ac.in

- Engineered a full-stack web application for a national-level technical symposium, handling registrations, participant data, and online transactions
- Developed a responsive React.js frontend and a Node.js/Express.js backend with RESTful APIs; integrated Supabase for authentication and database management
- Integrated a payment gateway for seamless online transactions; deployed frontend on Cloudflare and backend on a VPS

Time2Order — Preorder Management System

time2orders.com

- Developed a web-based preorder and soundbox platform for local shops using Python, SQL, and the Cashfree Payment API
- Reduced customer wait times and improved crowd-flow management during peak hours

Time2Due — Operations Management Platform

time2due.com

- Designed a web platform for cable operators to manage employees, track offline payments, and view reports through mobile-friendly dashboards

Time2Farm — Farm Finance & Management Platform

- Created a farmer-focused app to track section-wise income/expenses and profits, with AI-driven insights via the Gemini API
- Designed a simple, mobile-friendly interface accessible to non-technical users

TrueSight AI — Deepfake Detection System

- Engineered an AI-powered deepfake detection system with a Flask backend, using Roboflow-trained models for video and audio analysis
- Designed forensic-style report generation for cybercrime investigations; presented to Namakkal Cyber Cell; won 2nd Prize for innovation and real-world impact

Steam Game Platform Analysis — Power BI Dashboard

- Designed an interactive Power BI dashboard analyzing game performance, player engagement, pricing trends, and market insights using DAX

CLIENT PROJECTS

AutoRevives — Vehicle Auction Platform

autorevives.com

- Developed a full-stack vehicle auction platform for managing repossessed and seized vehicles using React, Python, and MySQL
- Implemented role-based access control, online bidding, vehicle inventory management, document handling, and analytics dashboards

Propic — Home Cleaning Products Marketplace

propic.in

- Built a modern e-commerce platform for home cleaning products, delivering smooth product discovery, cart management, secure ordering, and order tracking
- Developed a responsive interface with efficient product and inventory management to support business operations
